**Fighting Marks Resistance Of Russians and Teutonic Onslaughts**

**FALL OF WARSAW, HOWEVER, CERTAIN**

**Warsaw-Petrograd Railroad Now In Great Peril**

**FROM HINDENBERG'S ARMY**

Inevitable Disaster to Russians Would Result if German Field Marshal Should Get Astride This Line of Communication—Comparative Quiet On the West Front.

[ASSOCIATED PRESS TELEGRAM] London, Aug. 5.—Warsaw's fall is now considered in London to be so certain that its fate has ceased to be a matter of speculation, while the vast turning movement of the Germans to northward of the Polish capital is exciting the concern of the entente allies.

It is feared by observers here that the evacuation of Warsaw may be too late to save the armies of Grand Duke Nicholas from the grave disaster which would be inevitable if Field Marshal von Hindenberg should get astride the Warsaw-Petrograd railway.

In the north the Russians now are defending the line of the River Ekau east of Mitau. This means that the Germans are at a point forty miles south of Riga and about one march from that town.

The critical situation at Riga is indicated by the evacuation of the city by the non-military elements of the population, the banks being the last to leave. German cavalry forces are scouring the country in such numbers that the Warsaw-Petrograd line is always in danger of being cut.

At Kupischki, 50 miles west of Dvinsk, heavy fighting is in progress with the Russians resisting stubbornly, as the breaking of the defense here would mean the early loss of Dvinsk, a most important junction of the Petrograd-Warsaw railroad.

Desperate battles still are prevailing along the Narew river, with the Germans meeting the stone wall of the Russian defenses, except at a point near Ostrolenka, where they forced the river, captured several thousand prisoners and forced the Russians back to the outer defense on the northern front of the fortress of Lomza.

Prince Leopold and his Bavarians are now before Warsaw. Berlin claiming that the Russians have been thrown from the Blonie line into the outer defenses of that fortress, which brings them 14 miles to the westward of the Polish capital.

Berlin reports the Germans have occupied the western portion of Ivangorod fortress, but Petrograd claims that the Ivangorod-Warsaw railroad is still open.

Comparative quiet prevails on the western front and in the minor battle fields.

**ARRIVE IN WASHINGTON FOR CONFERENCE**

**With Secretary Lansing Regarding Formula**

**SOVEREIGNTY OF MEXICO**

Is the Object to Be Sought, to Convince the World That the United States is Acting As That Country's Most Powerful Friend to Aid Her to "Save Herself."

[ASSOCIATED PRESS TELEGRAM] Washington, Aug. 5.—The six Pan-American diplomats invited by President Wilson to join the United States in formulating a plan for restoring peace to Mexico, arrived here today for their conference with Secretary Lansing. The first result is expected to be the groundwork of an understanding for an all-American project to re-establish constitutional government below the Rio Grande, preserve the sovereignty of Mexico and convince the world that the United States is acting as Mexico's nearest and most powerful friend and neighbor in saving the distracted country from itself.

Ambassadors Naon, Da Gama and Suarez of Argentina, Brazil and Chile, respectively, who were mediators at the Niagara conference last year, and Ministers Calderon, Mendez and De Pena, of Bolivia, Guatemala and Uruguay, respectively, selected because they are the three ranking members of the Pan-American league corps, went to the state department to meet Secretary Lansing at 2:30 o'clock.

The diplomats were only partly advised of President Wilson's plan. The purpose of the conference was to invite their help in working out. Their governments already have signified their willingness to co-operate in the work and after today's conference, it is expected the other Pan-American countries including Cuba, not represented in today's conference, will be asked to join in the work. So far as is known, the president's plan proposes first, a cessation of warfare and establishment of provisional government by the factional leaders themselves; should that fail, the American nation would assume the task.

The Villa and Carranza leaders here began taking steps to get their claims before the conference, through courtesy of some of the Latin-American participants.

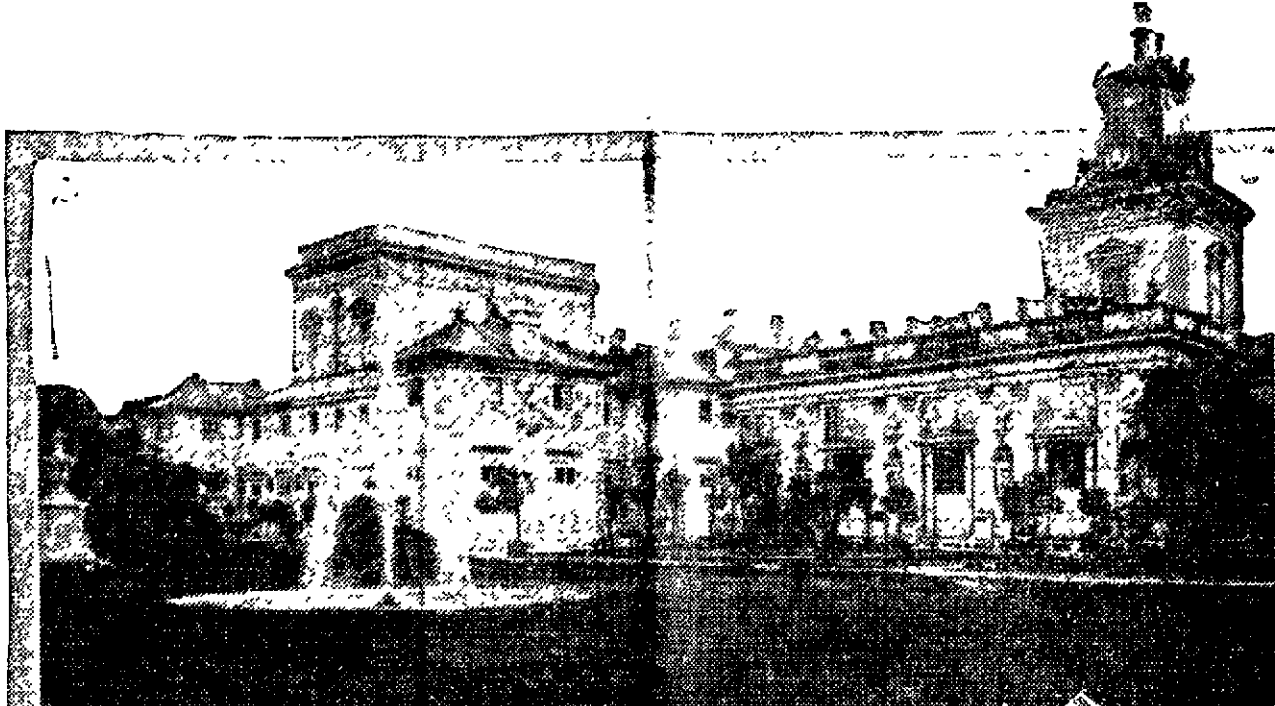

The Carranza representatives will point out that they now control the greater portion of Mexico, including most of the principal cities and all the principal ports, and that they have restored civil government and industry in the wake of their armies. They will press their claims of military advantages over the Villa forces.

Villa representatives plan to submit their willingness to participate in peace conferences between the (Continued on Page 2, Col. 3.)

**MADE LATE IN JULY FOR THE EVACUATION OF POLISH CAPITAL**

**Evidenced by the Number of Official Orders For Removal of Government Functions.**

[ASSOCIATED PRESS TELEGRAM] Warsaw, July 22.—(By mail to Petrograd and London, Aug. 4.)—The hurried measures adopted for the evacuation of this city are shown in a number of official orders which have appeared. These edicts direct the removal of the University of Warsaw to Moscow and the discontinuance of the administration of justice before the high courts after July 24. Another states that all horses, automobiles and other means of transportation not removed to the right bank of the Vistula before July 18 will be subject to the requisition of the government thereafter.

The order for the removal of the university directs the faculty to leave today and says that if it is found impossible for them to return the courses will be continued at Moscow university, a famous educational institution.

The edict discontinuing the law courts states that no new cases will be accepted, that pending cases will be discontinued and that sentences will be suspended. A guardian is appointed for the law buildings pending this suspension which lasts "until further notice."

An order from the governor general suspended three Jewish newspapers but the editors have announced that funds contributed by American Jewish organizations will permit the continued employment of the editorial staffs and provide three weeks' pay for the mechanical forces. A kitchen also has been established where employees may obtain dinner for twenty kopeks (13 cents). Official plans have been published for the organization of the male civilian population between the ages of 18 and 30 years for military work such as transportation, the building of roads and the digging of trenches. These plans provide that each 1000 shall be under the direction of a "head man," with a centurion for each 100. The "head men" and centurions will receive \$1.32 a day, while each worker will receive fifty cents a day and his board. The trade organization of civilians will be turned over to the military authorities as complete units.

amount of war exports to a belligerent endangers the neutrality of a non-belligerent, cannot be arbitrarily set. The further contention in the Austrian note that congress would, under the constitution, be justified in empowering the president to restrict war shipments, is met with the statement that the United States feels any change in its own laws during the war, would according to international law, be an unjustifiable departure from its policy of strict neutrality.

**PLEDGE SUPPORT NEXT CONFERENCE OF PAN-AMERICANS.**

[ASSOCIATED PRESS TELEGRAM] Washington, Aug. 5.—Pledges of co-operation for continuing the work of the recent Pan-American financial conference are reaching the treasury department. Cable messages have been received from the president's office south and central American republics in response to an identical message sent to them by President Wilson expressing the appreciation of this government for their aid in making the conference a success.

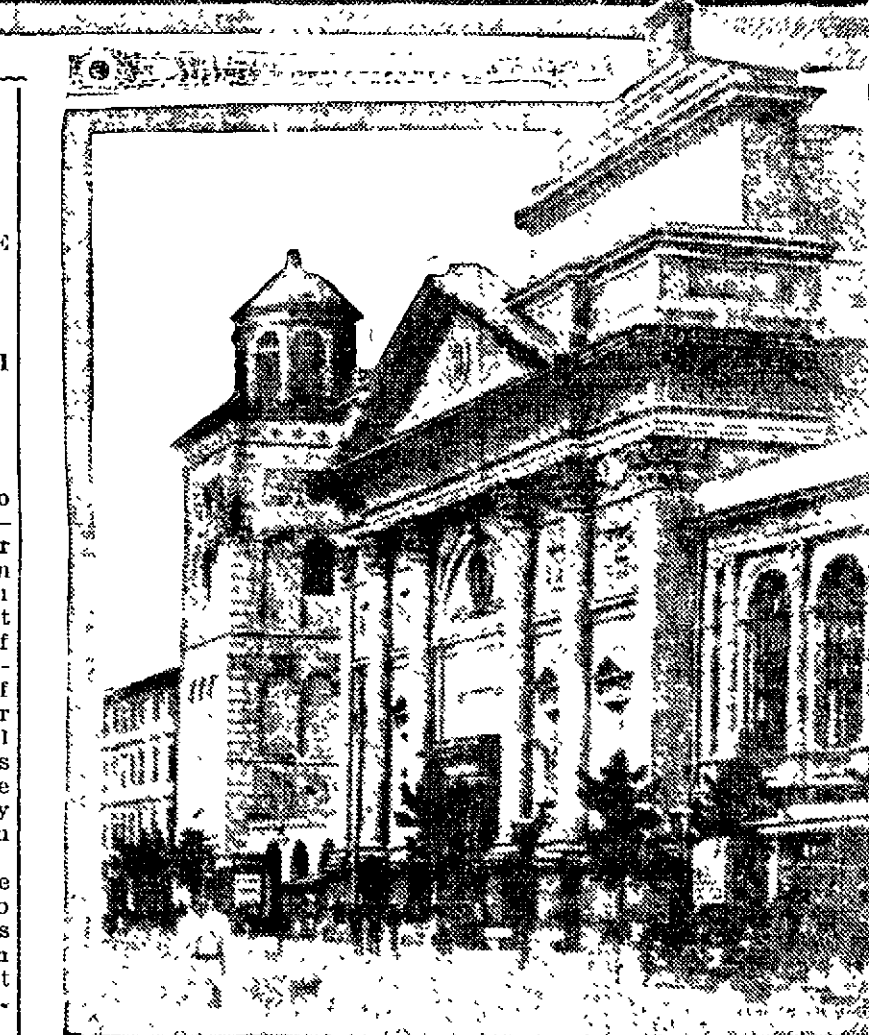

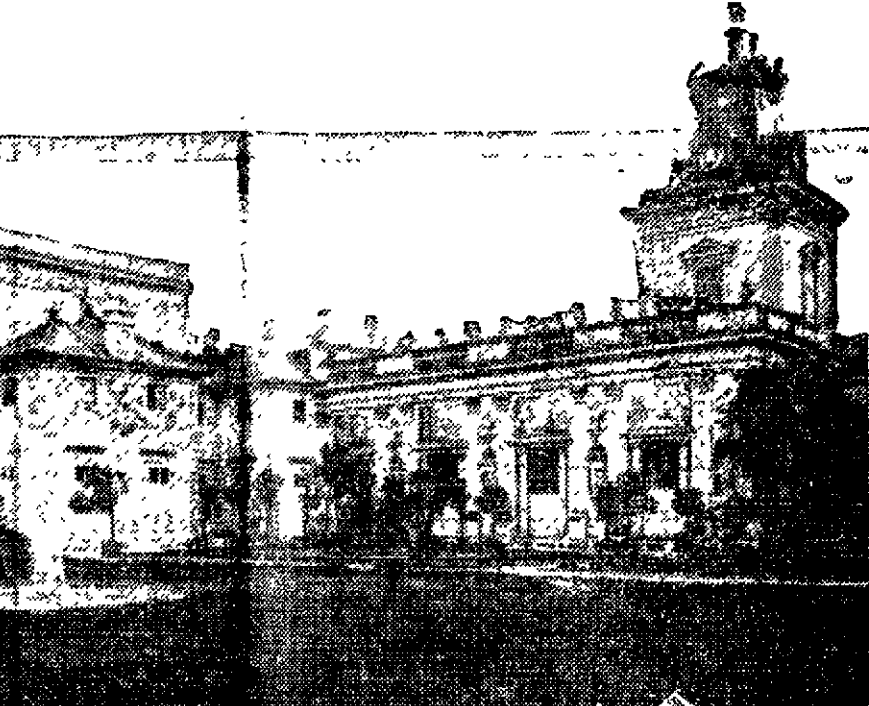

## DEATH LIST AT ERIE SHOWS INCREASE; TERRIFIC STENCH COMING FROM RUINS INDICATES MORE BODIES BURIED THERE

[ASSOCIATED PRESS TELEGRAM] Erie, Pa., Aug. 5.—Twenty-four bodies have been recovered, eighteen of which have been identified and a list of names of fifteen known missing persons is the correct toll of victims today of Tuesday night's flood. Coroner Hanley said this morning that he thought the death list would reach seventy-five, being swelled by the probable loss of a number of foreigners whose houses were swept away on the banks of the creek at Ninth street.

## Germany Denies Violation Of Treaty By Sinking Frye; Will Pay Owners Damages

[ASSOCIATED PRESS TELEGRAM] Washington, Aug. 5.—The controversy between the United States and Germany over the sinking of the American ship William P. Frye, still remained unsettled with the publication today of the latest German note again justifying the German course and reiterating a willingness to make reparation for the ship.

Replying to the last American representations, Germany, in justification of the sinking of the Frye, adheres to her previous claim that the attack was not in contravention of the Prussian-American treaty of international law.

The whole controversy hinges on article thirteen of that treaty, the American contention being that it specifically protected the Frye from being sunk, although not protecting a contraband cargo. Germany, on the other hand, contends that the article only obliges her to pay damages.

In again offering to pay for the ship, Germany accepts the American proposal that the amount of damages be fixed by two experts, one to be selected by each country and pledges prompt payment with stipulation, however, that it shall not be regarded as payment for violation of American rights. Should that method be unsatisfactory, the United States is invited to arbitration at The Hague.

It is considered likely that the commission method will be satisfactory to the United States, provided, (Continued on Page 9, Col. 4.)

## FIRST DROVE CZAR'S ARMY FROM GALICIAN TERRITORY

Then Without a Perceptible Halt Began the Determined Onslaught Upon the Russian Salient, Which Has Terminated In the City's Fall—Importance of Austro-German Victory Can Hardly Be Foretold Until Next Move of Conquering Invaders Becomes Apparent, But It is a Severe Blow to Entente Allies.

[ASSOCIATED PRESS TELEGRAM] Berlin, Aug. 5.—By Wireless to Tuckerton, N. J.—Warsaw was taken this morning by German troops, according to official announcement made at German headquarters.

The city's defenses, where the rear guards of the Russian troops were stationed, made a tenacious resistance.

Continuing the report from headquarters says: "The German armies under General von Scholtz and General von Gallwitz, advanced in the direction of the road between Lomza, Ostrov and Viskov and fought a number of violent engagements. The brave and desperate resistance of the Russians on both sides of the road between Ostrov and Rosan was without success.

"Twenty-two Russian officers and 4840 soldiers were taken prisoners. The Germans also captured 17 machine guns.

"German cavalry yesterday and the day before defeated in Courland detachments of Russian cavalry at points near Genaize, Byershi and Oniskshy. A total of 2225 Russian prisoners was taken.

"The situation near and to the north of Ivangorod remains unchanged.

"The campaign is being continued between the upper Vistula river and the River Bug. German cavalymen have entered Wladimir Wolnisk, on the Bug river.

"In the Vosges there has been a new engagement near the Lingenkopf."

The fall of Warsaw marks the culmination of the greatest sustained offensive movement of the European war.

Thrice before Teutonic armies have knocked at its gates only to be decimated by the strength of its defenses and the resistance of the forces holding it. Apparently impregnable in the face of direct attack, it was compelled to capitulate before the sweep of a vast movement which threatened to encircle the capital and with it the Russian armies engaged in the campaign of which it was the storm center.

Polish capital in their combined drive to force the Russians out of Poland and if possible to break their offensive power for an indefinite period by administering a decisive defeat all along the line. The movement may be said to have had its inception in May, when the great Teutonic march through Galicia began. To get at the Russian armies in Poland from the southeast, it first was necessary to clear Galicia, or the greater part of it, of the troops of that nation.

How successfully this was accomplished is familiar history. Field Marshal von Mackensen's campaign in its first stages culminated when late in June Lemberg was retaken and the Russians were driven over the Galician border. Then early in July the

## Question of Changing Rates On Coal Shipments In Ohio Is For Commerce Commission

[ASSOCIATED PRESS TELEGRAM] Columbus, Aug. 5.—This entire question of changing rates on coal even in traffic within the state properly belongs to the interstate commerce commission and should be left to that body by the Ohio Public Utilities Commission, according to arguments which railroads were ready to present to the commission here today when the hearing on miners' complaint against coal rates was opened. The attitude of the railroads, as explained during the legislative several months ago, when a measure was being considered to reduce freight rates

within the state, is that the whole schedule of coal rates in Pennsylvania, West Virginia, Kentucky and Indiana would be disarranged by a revision of Ohio rates. It was expected counsel for the railroads might urge this as basis for asking that the case be dismissed by the Ohio Utilities Commission.

Although no officials would venture a guess on the probable length of the hearing before the commission, counsel for the miners today were prepared to urge that a thorough investigation into coal mining conditions be made by the commission. Inasmuch as it has authority to summon witnesses on its own initiative, the course of action might tend to prolong the hearings greatly.

Arrangements were made today to conduct the hearings in the senate chamber if the room of the Utilities Commission, used for this purpose regularly, is found too small to accommodate those who attend.

In asking a reduction of rates on Ohio coal, the miners make this charge: "Each and all of the rates charged and collected by each of the railroads for the transportation of Ohio coal in region."

# "GERMAN DAY" OBSERVED AT EXPOSITION

TRUTON RACE HAS BEEN TO AMERICA WHAT GREECE WAS TO ROME

Bringing to Its Adopted Country Culture and Learning, Says Principal Speaker.

(ASSOCIATED PRESS TELEGRAM) San Francisco, Aug. 5.—German influence in America for freedom, education, religion, culture and good citizenship was proclaimed second to none, in an address here today by Dr. C. J. Hexamer, of Philadelphia, president of the National German-American Alliance. Dr. Hexamer was the principal speaker at German Day, at the Panama-Pacific exposition.

"What Greece was to Rome," he said, "that Germany in the widest sense to us our beloved land, only with the further distinction and advantage in our favor that the Greek brought to Rome with his culture disgusting sensual vices, while the German, with his culture brings to his new home sturdy integrity and a pure and happy family life."

"German Day" at the exposition was set for early August, he explained, in commemoration of manifestos issued in Philadelphia, August 1, 1775, by German churches and societies declaring for independence. He cited historians to show that at the Battle of Long Island, "the Thermopylae of the American Revolution," Pennsylvania Riflemen under the German Colonel John Peter Kitchin saved the American army.

"The Teuton does not derive law directly from the will of the nation," the speaker quoted. "He claims for himself an inborn right which the state must protect, but which it does not create and for which he is ready to fight against the world."

Easter, Christmas and Sunday schools, the speaker said, were given us by the Germans.

"It may interest those who believe that all culture came from New England to know that the 'first ladies' seminary in the United States was established by Moravians at Bethlehem, Pa. in 1749. In our educational system, German influence has been paramount from the kindergarten to the university."

The speaker said the German-American "asks no political favors and prostitutes its vote for no one."

He said the census showed that Germany had furnished "about thirty per cent. of our so-called foreign publication, while England—'which I quote without idiosyncrasy for comparison only—gave use about 11 per cent. including those from Wales."

## GERMAN ALLIANCE

Concludes Business Session and Goes Slight Seeing.

(ASSOCIATED PRESS TELEGRAM) San Francisco, Aug. 5.—The conclusion of the business session of the convention of the German-American Alliance of the United States left the delegates free today to devote themselves to sightseeing and a visit to the Panama-Pacific exposition, at which the day had been set aside for them as "German Day."

In addition to the adoption yesterday of a resolution protesting against the traffic in war materials, between the United States and the enemies of Germany, the Alliance recommended the divorcing of the tariff from politics provided that in all future city, county, state and national elections, members of the Alliance shall work and vote for such candidates as are favorable to German-American principles and ideals.

Eastern operations, which have passed almost unnoticed, is revealed in the announcement from Petrograd of the destruction of almost 900 Turkish craft in the Black Sea by a Russian torpedo flotilla. More than 800 of these vessels were sailing ships which had been built to carry supplies from the Anatolian coast. The persistence of the Turks in building these ships, despite their continued destruction, is accepted here as meaning that Constantinople is in desperate need of supplies.

The British board of trade report for July shows that sixty-two British steamers and sailing craft were sunk by the Germans during the month with a loss of 63 lives, while four steamers and 19 lives were lost by mines.

# GRANGERS

WILL MEET IN REUNION ON STATE FAIR GROUNDS, SEPTEMBER 1-2.

Elaborate Program Has Been Prepared, Announced by State Master L. J. Taber.

(ASSOCIATED PRESS TELEGRAM) Columbus, Aug. 5.—It is said today that L. J. Taber, master of State Grange, has prepared an elaborate program for the reunion of the State Grange on the state fair grounds on September 1-2. The reunion will this year cover two days. Instead of one, as before, and the speakers will be of national prominence. Oliver B. Wilson, the national grand master, has accepted an invitation to attend, as has also John A. McSparran, master of the Pennsylvania state grange, and C. M. Freeman, national secretary of the grange.

On the afternoon of each day there will be round table discussions. Mrs. Harriett Dickson, lecturer for the State Grange, will preside on the first afternoon when the subject will be "The Grange and the Home," and Hon. L. J. Taber, the state master, will preside on the second afternoon when the theme will be "The Grange and the Farm." Master McSparran of Pennsylvania, will speak on the afternoon of the first day of the reunion. Grand Master Wilson, National Secretary Freeman, and Governor Willis will speak on the afternoon of the second day.

They found the books in first-class condition and placed their approval upon the accounting of the treasurer. Mr. Steblea and Mr. Baila left this afternoon for Cincinnati.

# PRESIDENT SENDS SPECIAL FLOWERS TO WIFE'S GRAVE

(ASSOCIATED PRESS TELEGRAM) Cornish, N. H., Aug. 5.—President Wilson was up before 6 o'clock this morning working in his study. He planned to go to Woodstock, Vermont, for an early morning game of golf, but rain prevented. Immediately after breakfast he went to his study and began reading his correspondence.

Mrs. Woodrow Wilson will have been dead a year tomorrow and special flowers will be placed on her grave in Myrtle Hill cemetery at Rome, Ga. The president has been unable to go to Rome since Mrs. Wilson's death, but her grave has been carefully looked after.

# EMPIRE RESIGNS.

(ASSOCIATED PRESS TELEGRAM) Cincinnati, O., Aug. 5.—It was announced here today that Empire William Hart, of the National League, had resigned, and that he umpired his last game in this circuit yesterday in the Brooklyn-Cincinnati game.

It was stated that the resignation is entirely voluntary.

# CHILDREN ARE CREMATED AT SUMMER HOME

EIGHT COTTAGES DESTROYED AND DYNAMITE USED TO SAVE OTHERS.

Overheated Chimney From Grate Fire Cause—Little Ones Refused to Jump.

(ASSOCIATED PRESS TELEGRAM) Delavan, Wis., Aug. 5.—Three children were burned to death, eight cottages were destroyed and three dynamited to save others in a fire at Lake Delavan, a resort near here, early today. The fire was brought under control in time to save a number of summer hotels. The dead are: Helen, Lucy and Mary Bryant, children of George G. Bryant, president of the Racine Rubber Co., in whose cottage the fire is believed to have started from an over heated chimney. Because of the cold weather, grate fires have been lighted in the cottages for several nights.

The Elkhorn, Lake Geneva and Delavan fire departments hastened to the resort at the first alarm and their united efforts were needed to save the cottages and hotels that were in the path of the flames. The bedrooms in which the children slept were cut off by flames and smoke. The financial loss was small.

The Bryant children apparently were dazed and refused to jump from the window when they were told to do so. While their parents watched helplessly, their clothing caught fire and they fell back into the burning room. A search for a ladder consumed some time and when it was procured, the children were dead.

That there were not more casualties was due to the promptness with which the warning was sounded. Within a few minutes after the fire was discovered in the Bryant cottage resorters had formed a bucket brigade and water was carried up the beach from the lake and thrown on the flames. The cottages destroyed were only 200 feet from the Highland hotel, the largest on the lake.

they had forced the Russians back to the line of the Naraw river and pushed their way to within twenty miles of their goal. The fortress of Ostrolenka was taken and the Nowogrozievsk fortification, the key to Warsaw on the north, was approached. To the south, Radom was occupied and the Russian lines of communication in the Lublin region threatened. Then began a tightening of the German lines around the capital. The Teutons forced their way past Bloniec, southwest of the city, pushed their way across the river Naraw, below Ostroenka and the battering at the fortified gates of the city started in earnest on Tuesday of this week by Bavarian troops under command of Prince Leopold of Bavaria.

From the beginning of the war the salient in the Russian line formed by the band necessary to include Warsaw and a large portion of Poland had been a thorn in the flesh of the Russian military authorities. They showed this by their desperate, and at times partially successful attempts to straighten their fighting front. Before they could advance at the center and move west from Warsaw, the wings must be brought up so as to prevent successful flanking movements. Simultaneously, in East Prussia on the north and in Galicia on the south, the Russian armies began to push forward. Twice in East Prussia they were swept back but before last winter set in, they had succeeded in pressing their way through Galicia and were nearing Cracow, which is almost directly on a line south of the Polish capital.

In the spring, however, after Przemyel had fallen into their hands and the victorious Russian armies

# NEWARK MASONS TO ZANESVILLE SUNDAY, AUG. 8

Newark Masons are making their preparations for attending the laying of the cornerstone of Bethesda hospital at Zanesville, on Sunday, August 8. The ceremonies will be under the auspices of the Grand Lodge of Ohio, with Grand Master George L. Marshall of Dayton in charge, and it is anticipated that there will be an immense gathering of the members of the fraternity from this section of the state. The members of the fraternity in this city feel that there is a debt of gratitude owing to the Masons of Zanesville in repayment for the splendid turnout they gave at the dedicatory ceremonies here on June 24, and also for the fact that the lodges of that city abandoned their annual St. John's Day picnic for the year in order that they might be present with the Newark brethren on the day when they symbolized the completion of their years of hard work in dedicating their new Masonic home in this city. Both the Blue Lodges and St. Luke's Commandery feel that it is up to them to reciprocate in kind with the fraternal courtesy shown by the lodges and commandery of Zanesville and will show by their attendance on Sunday that they have the proper reciprocal spirit. The Buckeye Band of this city will accompany the lodges, while the Ladies' band of Chicago Junction has been secured to accompany the Commandery. The latter will reach Newark about 8:10 Sunday morning in order to be here in time to join the special E. and O. train which will leave Newark at 12:25 Sunday for Zanesville, and which will leave Zanesville at 6 p. m., returning to Newark. Both the lodges and Commandery will convene at 11:30 at the lodge and Commandery rooms and march to the depot to take the train. The Sir Knights will be in full uniform.

# IMPORTERS

WHO ARE INTERESTED IN OBTAINING GOODS FROM AUSTRIA AND GERMANY

Have Been Called to a General Meeting to Consider the British Note.

(ASSOCIATED PRESS TELEGRAM) New York, Aug. 5.—A general meeting of importers interested in obtaining goods from Germany and Austria has been called here to be held some time next week to consider the British notes regarding the detention of American ships and cargoes by the British government. The meeting was called by the chief Baltimore executive committee of importers to consider what further efforts should be undertaken to obtain relief from the situation in which American importers of German and Austrian merchandise are placed as a result of the British embargo.

It was reported that the importers will ask President Wilson and Secretary of State Lansing to enter a strong protest against Great Britain's attitude. One protest against England's embargo already has been presented to the president.

Counsel for the American Importers Association said that organization probably will meet next week to consider the same subject.

The apology, made known here today, was in response to a message from Simplic, demanding an explanation.

The Carranza commander stated he was unaware that the machine had crossed the line and gave his assurance there would be no repetition of the incident.

# SLIDES FROM ROOF OF HOUSE; NOT BADLY HURT

Benj. Mr. Pratt had been at work but a short time when he went to the roof of the new structure. He lost his footing and slid off the roof to the ground, landing on his feet. The force of the fall threw him against a brace to the scaffolding and strained his back. His legs were also badly strained by the fall.

Dr. U. K. Essington was called to care for the injured man.

# DEATH LIST

(Continued from Page 1.) sons made homeless and destitute," today declared Mayor Stern, who has taken active charge of all relief work.

"We have the situation well under control and expect to clean up our city in less than a fortnight," Mayor Stern today walked through the flood zone and later said the loss on city property, would not exceed \$500,000.

The first funerals of flood victims will be held tomorrow.

Figures compiled by the authorities indicate that at least forty others have been lost, the majority, it is believed, being in the foreign section around Ninth street, where many foreigners lived in two or three houses that were washed away.

Work of clearing up the city was commenced in earnest this morning. The naval militia was called out to reinforce the national guardsmen on duty guarding the stricken section, and sightseers were kept away from the working gangs. These men were detailed in parties under competent foremen so that the best possible results could be obtained in the least possible time.

Mayor Stern announced that he had received offers of relief from many cities in Pennsylvania, but he thought the city would be able to take care of its own expenses.

The public eating houses opened yesterday were in position to take care of many persons who had neither food nor shelter, while charitable people provided liberally with clothes, those who had lost their all in the torrent.

Physicians from the Pennsylvania health department arrived here during the night, and at once took up the task of safeguarding the city from pestilence.

Estimates of the damage continue to mount as the extent of the flood becomes apparent. Where it was believed that \$3,000,000 would cover the loss, it was today asserted that probably \$5,000,000 would be nearer the correct estimate.

Mayor Stern whose appeal to the people for help yesterday met with ready response, today stated that \$8,000 was already in hand and much more in sight.

A trip through the flood region this morning showed hundreds of persons lining the banks of the now insignificant stream, while other hundreds were kept back by the national guardsmen. The stench arising from the mass of wreckage kept other hundreds away.

Gangs of men were early put to work clearing up the stores along State street, the principal business thoroughfare where many places were flooded, but the principal damage was due to the deposit of filth and slime left by the falling waters. Little, if any, business was done there yesterday, but attempts in that direction were made today. The losses to ruined stocks here will be heavy.

## In Investigating Your Savings

Remember that there are two things you can get.

One is income. We pay four per cent. That it is not more is one of the sure indications of the safe and conservative management of this Association. It is a fair, even liberal return on money, considering the extreme safety.

The other thing you can get is protection.

Protection is all-important. It cannot exist without great safety, and it is not very valuable protection unless you can get your money back promptly. In thirty-five years this "Old Home" has never asked any one to wait for his money.

We invite your savings on the basis of fair income and the highest possible degree of protection.

You can deposit or withdraw money by mail safely. Write us for particulars.

## OLDFIELD, IN TRIAL, MAKES 110 MILES AN HOUR

Says Resta Must Go Some to Beat New French Car in Saturday's Races.

Chicago, Aug. 5.—"Well, I guess that puts the burden of proof on Resta," grinned Barney Oldfield as the Old Master pulled up to a group of friends at the speedway this morning after finishing five laps of the two mile oval at the rate of 110.16 miles per hour with his French Delage car, driven in public in America for the first time this morning. Oldfield is the first of the starters in the big Oldfield, Resta-Burman, Cooper match scheduled for the speedway next Saturday to "try out."

Resta's best lap of the course with his Derby winning Peugeot was at the rate of 110 miles an hour after he had ample time for practice and adjusting his carburetor to the Maywood altitude and atmosphere. With but a few laps trial Barney bested the Italian's record for the track and declared he can add a full two miles an hour to the present mark. As the veteran was never charged with being boastful his prediction of his future speed must be accepted as being at least near the truth.

"Neither Burman nor Cooper will worry me," continued Barney. "Cooper is a nice little fellow and comes from a great state, California, but his car is not within five miles an hour as fast as my new car. Burman holds the world's record for riding his 'horse to death in races', but he will never get close to the front if Resta is as swift as I think he will prove. The race will be won as fast as 105 miles an hour average and I am allowing for at least one tire change. This will be the supreme drive of my career and I would give just half my part of the stakes to get Ralph DePalma in the race."

Oldfield's confidence is not causing worry in the camps of the other pilots and the fact that Dave Joyce, Oldfield's backer is flourishing \$1,000 bills for the purpose of attracting a few sports from the other side into making a friendly, or otherwise, wager, is put down to Joyce's enthusiasm rather than a result of the dope sheet. Burman arrived late last night from Des Moines and Cooper drove up from Indianapolis late in the afternoon. Both retired as soon as they got in, ready for an early start for the speedway this morning. Resta is due on one of the 26-hour New York trains this morning.

## GRAND CIRCUIT STARTS ON WET COURSE WEDNESDAY

Kalamazoo, Mich., Aug. 5.—After a delay of two days, Kalamazoo's Grand Circuit race meet opened yesterday afternoon under anything but favorable weather conditions. A downpour of rain for two days and an almost constant drizzle today made the track exceedingly slow.

The surprise of the afternoon was the defeat of The Eno, favorite in the \$2,000 Michigan United Traction trot. St. Frisco, the Geers' entry, took the event in four heats. The Eno winning the first one.

The 2:08 pace proved easy for Acornite, who won in three straight heats. Marston Hal made a good showing in the last two heats, but was unable to gain a lead at any time.

Lou Jennings, favorite in the 2:09 trot, finished last in the first heat, and was distanced in the second. Lizz Brown won this race by taking the last three heats. Charley Valentine drove her.

The 2:13 trot was the slowest race of the day, being won by F. A. L. He was not driven out until the third heat. Victor Star, Valentine up, was second in this event.

**CLEVELAND RACES GOOD.** Cleveland, Aug. 5.—The track record for both trotting and pacing was broken at the Cranwood Lake Erie Circuit meeting yesterday when Hoal Hail clipped the pacing mark to 2:07 1-2 and Mary Warren lowered the trotting mark to 2:12 1-2. Although Grand Opera was a prohibitive favorite in the \$100 stake for 2:10 pacers, he had to go five heats to win, and then it took a clever drive by Neville to win the trick. Grand Opera went the shortest route in all five heats and, after Roan Hal and Bonnie Boy had killed themselves off with their fast miles, he won the race.

Sanford Small of Boston, owner of Worthing Prince and purchaser of Billy Dale Monday, was here to see his new horse win the \$1000 stake for 2:14 pacers. Vance Nuckolls drove Billy and won easily with him. A big crowd attended.

**13 HEATS AT XENIA.** Xenia, Aug. 5.—High class racing and fast time marked the first day's racing of the Greene County Fair Wednesday. Each of the three events

were split up and it required 13 heats to finish the program. Popular choices were the winners.

**JACK K. TOLEDO STAKE WINNER.** Toledo, Aug. 5.—Fairly good fields and fast racing, with one event tied up in five heats, featured the opening of the Michigan Shortship program here yesterday. To decide the 2:20 pace, for a purse of \$500. May Fern and Mary Peter will race a sixth heat today.

The Boody House stake of \$1000 was won by Jack K., driven by Harry Gray, after losing the first heat to Yanko Kate, a chestnut mare by Green Seal, with Malloy up, took the 2:20 class trot in straight heats. Billy Brino went out three times in front in the 2:10 trot, his best time for the mile being 2:08 1-4.

Jack Woodcliffe, owned by B. M. Critchfield at Mt. Vernon, was second in the 2:20 trot.

## GILBERT SELLS STAR PITCHER TO BOSTON SOX

Terre Haute, Ind., Aug. 5.—Arthur Nehf, left-handed pitcher for the Terre Haute Central League team, yesterday was sold to the Boston Nationals. Nehf's record this year is 19 games won and 10 lost. He leads the league in strike-outs with 218. Nehf reports to Boston at Chicago today.

## DOUBLE HEADER AT WEHRLE PARK

The C. A. C. team will pay a double header at the Wehrle grounds Sunday afternoon. The first game will be called at 2 o'clock when they play the Heiseys, which will open the city championship series. The second game will be with the Stoner Athletic club of the Capital City league.

## CHAMPIONSHIP CHANCES ARE PLENTIFUL NOW

By Samuel Wesley Long.

"Breathes there a man with soul so dead that never to himself hath said 'I want to be a champion'?"

Fitness, rather than preference, determines the particular firmament in which the aspiring star will shine. We have stated the rule; there are exceptions, for instance, politics—that's the place that is congested with would-be-to-be, haswadders, etc. Aspirants for undying fame as a "champion" in the world politic so, so often are men whom the gods have endowed not.

R. A. KING  
Colorado State Champion.

Still, we are not so very much concerned with exceptions to the rule itself, so back we go to fitness vs. preference in the matter of championships. Broadly speaking, championship qualification is divided into two classes—mental and physical. These instances will give general illustrations—chess and boxing. In the first case, it requires a highly developed mentality in a particular direction to win premier chess honors, while in boxing, Nature must mould a frame of ideal proportions and place within it vital organs so sturdy and co-ordinated as to supply motive power for continuous exertion of a character that would down the ordinary man for the count inside of a round or so.

Now, this analysis is not meant to infer that the champion boxer is necessarily a low brow or that the chess player is a physical weakling—the sole purpose is to show in a general way the great gulf that forces apart from man have fixed between laudable aspiration and successful accomplishment.

For the average, the normal man, the ideal sport—from the recreative angle and possibility of attaining a high degree of expertness—is the sport that provides mechanical means capable of equalizing the facilities at the command of his competitor and makes skill a matter of study and practice. Trapshooting falls under this classification—in fact, the clay bird game not only falls under but stands first in this class.

As to opportunities to become a "sure enough" trap champion—this is where the old proverb, "Opportunity knocks (at least) once at every man's door," gets double, triple, quadruple and other kinds of verification, for in looking for prospective trapshooting champions, old Opp. taps, raps, slams, bangs and kicks at the gunner's portal, to say nothing of overworking the brass knocker, exhausting the electric bell batteries and calling up over the telephone.

The editor asked for an article, not a book, so it will be necessary not only to refrain from going into details, but also to curtail the mere listing of the honors. To begin with, there are class championships at every trapshooting club—transitory honors usually rewarded with silver pap spoons. Then, come club championships, interclub, intercity, state, tri-state and interstate honors, with loving cups, trophies and other ornamental articles as tangible proofs of the shooter's prowess.

Once a gunman has passed beyond the limits of the real estate bounded and described above—in other words, has gone and got a "reputation"—he has before him the pickings of the national field; the practical shooter calls this "bacon," the esthetic may designate them as "the laurel," however, if a shooter wants to wear a wrist-watch that's his business, but he will likely feel mighty lonesome in company with the fellows who carry their ingersolls in a trousers pocket.

**Too Much Sunshine.** "Your boy Josh says he is the sunshine of the household."

"Yep," replied Farmer Cornstossel, "but there's such a thing as too much sunshine. Josh's perpetual cuttin' up around the place gets to be about as cheerful as a drought."—Washington Star.

## TY COBB A SOLDIER (?)

Not Yet, But Tyrus is a Shriner and Shooter.

By Garrett Bonfield.  
Tyrus Raymond Cobb, who swats 400 on the diamond, has a reputation as an .800 field shot.

TY COBB  
Detroit Tiger Player.

Knowledge of this fact reached the Quaker City fans, so Ty was recently summoned to appear before the assembled multitude at the Athletic grounds, Philadelphia, and was presented with a handsome double-barreled shotgun.

Let there be any thought that Ty has enlisted, let it be explained that his military-like cap is in reality a Shriner's fez, for the redoubtable swat artist is a member of the Mystic Shrine, and the ornate lid was placed on Ty's head for the shootin'-iron presentation when Potentate W. Freeland Kendrick, of Lu Lu Shrine, Philadelphia, said a few nice things about Ty when the gun was handed to the Tiger in the name of "Philadelphia friends."

When ball playing days are over for 1915, Tyrus Raymond will tie himself to his sunny Dixie Land, and in company with Stallings, "the miracle man" manager of the "World's Champion" Boston team, will try his hand at quail shooting.

Ty has done some trapshooting, and we are told he will likely go in for the inanimate "bird" sport after he has killed off most of the quail south of the Mason and Dixon line.

## DOUBLE CROSS FOR CLAY BIRD CONSERVATION HELP

We offer the suggestion that there be founded the "Order of the Double-Cross," membership therein to be restricted to "birds" of the genus "clay pigeon," for it is "theirs not to reason why; theirs but to do and die." Now this doin' and dieln', while primarily for the pleasure of some half million trapshooters, incidentally, lets gunners get a perfectly natural desire to shoot out of their systems without making the feathered creatures of wood and field victims of the skill of the shooters.

Aside from sentimental considerations, the protection of bird life is an economic question of greater importance than is generally realized. Unfortunately for the country, and equally so for the clay pigeon, it is not an insectivorous "bird," nor is it a songster, at least not so you would notice it. But, as we have intimated, the "birdie" faces fusillades of shotgun fire with utter abandon; a willing sacrifice to man's desire to demonstrate his prowess as a marksman.

In flocks of millions, the "clay bird" challenges the shooter to pit his skill against the speed of the target and its predilection to be where the shot is not and leaves the gunman the poor consolation of having punched a hole in the atmosphere at a cost of several cents per punch.

True, many trapshooters continue, in season, to follow the legitimate and royal sport of hunting, but a sportsman of the type that will shoot fifty to one hundred shells every Saturday throughout the year, just for the joy of shooting, is not the withered and greedy-eyed individual who would "hog" all the game of a county during both "open" and "closed" seasons. And, too, the trapshooter, believing in sport for sport's sake, would sic a game warden on the aforesaid g. i. and w. s. individual the minute he was caught with the goods.

Other hunters have forsaken field shooting for "the sport alluring," finding in the inanimate-target game a satisfying substitute, without combats with brambly bushes, wading of swamps or marshes and a spell of "rheumatism" that lasts from the end of one hunting season till just before the opening of the next.

"Jack" Fanning, "the Manhattan shooting star" has earned the thanks of thousands of trapshooters by preparing a "foolproof" set of "safety" rules and regulations for gun clubs.

Denmark is about 85 head of cattle to every 100 inhabitants.

## HOME-COMING F. U. A. STUDENTS AUGUST 18-19

Many Old F. U. A. Students Reside in Licking County—Plans for Big Reunion.

A home-coming of former students of Fairfield Union Academy and old residents of the town and community, will be held at Pleasantville, O., Aug. 18 and 19. Many F. U. A. students reside in Licking County.

This once popular institution of learning was established in 1860, in order to provide a higher education for the young people of Fairfield county and central Ohio. Commodious and substantial buildings were erected upon a large and beautiful campus. The school was generously patronized from the beginning and early established a favorable reputation. Among the able educators who presided at the head of the institution were Professors Fleming Wilkinson, Manley, Hastings, Brown (three in number), Hartsough, Mills, Tussing, Webb and Jennings. Many who were specialists during the different administrations of the school.

A large alumni, many of whom are now prominent with the affairs of state and nation, recall with pride their alma mater. To them the announcement of a home-coming will be welcomed. The committee in charge of the event desire that all former students of the institution and old residents will consider themselves invited and should not expect a formal invitation as it is impossible to procure the addresses of so many so widely scattered.

Former students located at Pleasantville are neglecting no detail to make the occasion a memorable one. Judge T. J. Duncan of Columbus, Dr. C. D. Mills of Marysville and Rev. J. C. Jackson of Chillicothe are some of the old students who will appear on the program. Miss Mary Smith, of Delaware, O., one of the early graduates of the academy, is the historian. A grand campfire of the old students and teachers will be held on the old campus on the evening of the 18th. Much interest is being manifested by the alumni in this portion of the entertainment. The symposium provided will recall many happy school days, friendships will be renewed, confessions will be made concerning impiety towards professors and a good old time love feast will prevail.

For the entertainment of the guests, a fantastic automobile parade, field sports, band concerts and fire works have been planned. The occasion will close with a large community social.

Realizing that local restaurants and hotels cannot possibly accommodate the crowds, a local committee on entertainment has been at work soliciting entertainment in private homes and a large boarding house will be provided and run under the direction of the committee. Reasonable rates will prevail and the citizens of Pleasantville and community will unite in making the home-coming a pleasant occasion to all present.

## REFORM HOME COMING.

July 31st was home-coming day at Reform, Licking county. The community hopes to have a homecoming every year. The gathering was held at Smith's Chapel and was a decided success, quite a large number being in attendance. The home community was well represented and a number of former residents came from Newark, Hanover, Centerburg and other points.

The earlier part of the day was spent in having a good social time and a splendid dinner was served in the church yard. In the afternoon, while it rained, the company gathered in the church and listened to addresses by the pastor, Rev. Mr. Miller, Ex-Commissioner Riley, Mrs. W. H. Swasty, Mr. Jackson Green, Mr. Yates, all of Newark, and Mrs. Nettie Cullison of Perryton. The addresses related to the community interests, moral, educational, and social. Reference was made to the past, its halcyon associations, sacred memories, and gracious revivals, numbering scores of converts. The day was one of mutual delight and profit.

## SHOWMAN FAMILY REUNION.

One of the most enjoyable family reunions of the season was that of the Showman family held Tuesday at the pretty country home of Miss Nan Showman, near Granville.

It was one of the most successful of the yearly gatherings since the custom of an outing each year was inaugurated, and although the attendance was not as large as it has been in some years past, the lack of numbers was made up by the social spirit and friendly relations of the different branches of the family represented.

Quite a number of Newark and Granville people attended the reunion and among those from a distance were Mr. and Mrs. C. S. Homer, Charles Delmar of Akron, and Mrs. C. E. Nash, Ruth, Fred and William of McGuffey, O.

Always at It.

A wise man, being asked to give a definition of woman, began: "Woman is, generally speaking—" "Stop there," said his friend. "If you went on for a thousand years you would never get so near it again."

No wonder the presidential candidates are starting in early, with 15,000,000 voters to shake hands with.

To the real lover of picnics, the food never tastes good unless it is eaten in a spot mighty hard to tote the lunch baskets to.

Horses suffer a good deal through the summer, but as they don't talk back it is generally agreed by drivers that they are perfectly happy.

Householders have to put in a lot of work planting and cultivating their fruit, but the Small Boy gives his assistance when it comes to harvesting.

The women are getting so set up over the advance of the suffrage cause that pretty soon they'll be demanding the right to leave the house without permission.

Tens of thousands of people crowd the big league ball games, but if you want to get out a couple of hundred to a lecture on literature, some pretty girls will have to be sent out to sell the tickets.

It is claimed that the crops raised in the United States this summer would load a freight train 7000 miles long. The ordinary freight train often seems that length now to the motorist who waits at the crossing.

W. W. Watson, of Youngstown, is seeking a job in the Willis State Board of Agriculture because he went to Ada University and was in Willis' class. Step right in, Watson, you've all the needed qualifications. There's an occasional slip in the program. Take the case of Justice Fletcher S. Scott for example.

It must make State Budget Commissioner Ed. Fullington, the late Auditor of State Walter Guilbert's right hand man, feel strange to help distribute one million dollars worth of interest on public funds for public purposes. It never happened while Guilbert was auditor and William S. McKinnon was state treasurer.

Here's a pertinent paragraph from the Youngstown Vindicator: "A worker in Republican State Headquarters last fall got the plum of secretary in the public works department. That \$2,000 job was handed out in recognition of party service you see, just as if this Republican administration had not come into being after a campaign noted for building up a political machine.

The liability insurance people who helped to elect Willis are now demanding licenses to compete with the state workmen's compensation fund. They want their notes paid. Let it be noted right here that what is left of the Cox commission known as the industrial commission is resisting the onslaught of the liability companies. No wonder Willis wanted their resignations before this thing came up.

**Child Life in Vacation.**  
For many weeks school children long for their annual summer holiday. They dream of the days when they shall once more wander free from all restraints. Yet as a matter of fact, many of them spend their time hanging around and asking their mothers what they shall do next.

The lawless and irresponsible freedom of vacation is a detriment to many children. They become petulant if asked to give an hour a day to little tasks for the family convenience. Yet they are able to take long jaunts and play incessantly in the sun. Children that seem perfectly well and self controlled in the regular discipline of school term, often become irritable and nervous in vacation, at a time when they are supposed to be receiving benefit from outdoor life and mental relaxation.

It is the opinion of educators and social workers that the modern child has too little to do. In modern town life, there may be no task left for them to perform. The custom of regular work seems to have gone out of fashion. One child frets if required to mow the lawn or sweep the walks while the other children are roaming the streets.

A high school principal was speaking the other day of the bad effects of the loafing habit on the older children. He felt it so keenly that he got the boys of his school to agree to pay a fine of five cents each time they were seen loafing around street corners by a teacher. The assessment was paid to the athletic association of the school, so all felt good natured about it. It practically cured street loafing by the boys of that school.

The trouble with the idea was that it applied only on Saturdays and after school during term time. During summer vacation, teachers scattered and the young folks could hang around the streets to their hearts content. But parents may well consider the suggestion as a vacation policy. A little regular work for school pupils during vacation will often save the younger children from getting over tired at strenuous plays, and will help prepare the older ones for more serious responsibilities later on.

**New Point of View.**  
The lack of decisive victory will not lead to a future war, but rather the contrary is the opinion of Prof. Alvin S. Johnson of Cornell in the New Republic.

However the present war may end, it will leave no nation gloating over easy victory. Say that Germany adds a few thousand square kilometers to her territory. A million disabled German soldiers, scattered through all the cities and villages of the empire, will bear testimony to the costs of national aggrandizement. Say that France recovers Alsace-Lorraine. Hundreds of thousands of war widows will mingle their sighs with the jubiliations of the crowd.

Nor will the present war print disgrace upon the mind of any nation. All the chroniclers of the world can transmit to posterity only a tithe of the tales of heroism from any one of the warring nations. After the war the nations that have fared worst will at any rate have the consolation of the record of a gallant fight; and the nations nearest approximating the state of victors will accord generous recognition to the bravery of their foes.

The formal terms of peace may leave open the door to future strife; but the underlying spirit of the peoples, something vastly more significant in the long run, is not circumscribed by written conventions.

**Spirit of the Press**  
Hard on the Jokesmiths.  
Comic artists will mourn Burbank's production of the nonskid banana peel. Poor (Jungs), they'll have to think up some new joke as a substitute for that old reliable ludicrously funny one about slipping up on the banana skin on the sidewalk.—Milwaukee Sentinel.

Too Much To Hope.  
New York's population has increased about 480,000 in five years, a fact that ought to cause some discouragement among the gunmen of that city, although it is too much to hope that it will.—Philadelphia Inquirer.

Much fault is found with the newspapers. But many of the big facts which they condense into a few lines many a man would consume an hour in telling.—Toledo Blade.

Taking the Conceit Out of Us.  
The cutting through of the Panama Canal has suddenly brought us face to face with a brother, instead of one whom we had considered a distant relative. And this brother is bigger, in some physical respects, than ourselves. We could place in Brazil all of the United States, excluding Alaska, and have 200,000 square miles margin. Argentina would accommodate in her borders all of the states east of the Mississippi and the first tier of states west of that river. And a trip as long as from New York to San Francisco by water would be required to measure the coast line of Chile.

If you were to circle South America, as did the American tourists recently on the Kronland, going through the canal, down the long bare coasts of Ecuador, Peru and Chile, through the Straits of Magellan, flanked on either side by glaciers, and then up the eastern coast of Argentina and Brazil, passing the Guianas, Venezuela and Colombia, you would consume a month in continuous travel. You would go from the heat of the equator to the cold of the world's southernmost city, Punta Arenas, on the Straits of Magellan.—The Christian Herald.

**A Land of Doctors.**  
(Pittsburg Gazette Times.)  
A story that has received universal acceptance in this country for many years is to the effect that in China people pay physicians so long as they are well and when sickness comes the salary stops. The idea is, of course, that this method of compensation will cause the doctors to do their level best to keep their patrons in health. A returning missionary spoils the pleasing story by declaring that never in his extensive experience has he met with this scheme. It is true that many of the more prosperous Chinese give their physicians a regular stipend, but it is continued whether they are well or ill. According to the report of the Rockefeller China Medical Board, comparatively few native physicians of that country deserve any salary at all, unless compensation is made on the basis of industry and sincerity rather than professional skill, for the practice of medicine is subject to no governmental regulation and anybody who wishes may hang out his shingle and proceed to dispense drugs and advice as freely as if he were a graduate of the highest school in the land. As a consequence China is overrun with doctors who make all sorts of extraordinary experiments on confiding patients, to the decided increase of the mortality statistics. The abnormally high death rate is viewed with equanimity by the government officials, who say food is scarce enough anyway.

When the Rockefeller Board began its investigation of conditions in China it expected to render chief service by discovering methods of coping with the epidemics which periodically sweep that unhappy country. But now, it seems, a greater evil has been found in the wide prevalence of unauthorized and incompetent medical practitioners. With competent native physicians put in their place and a system of up-to-date hospitals in the principal centers of population, there would be an appreciable decline in deaths and disease. Japan long ago adopted a system of training and registration for doctors, and they have acquired a reputation for skill in diagnosis and treatment that extends throughout the Orient. It would seem that China, defenseless from foes without, has suffered also from perils within, but the way to eliminating the latter will soon be opened.

**Bluster With a Big Heart.**  
Chicago is big and dirty, boastful, arrogant and reckless to the point of criminality. But Chicago's heart is as big as its bluster and quick to respond when help is needed. A city that, in the midst of hard times, will pour out more than a quarter of a million dollars in a few days to aid families of a horror such as that of the Eastland may be forgiven many faults. In every great world calamity of recent years the peer capital of Chicago has exceeded that of all American cities. Chicago's heart is "in the right place."—Columbus Citizen.

**It Pays To Paint.**  
(Farm and Home.)  
It pays to paint all permanent buildings that are made of planed lumber and properly finished. If tastily covered with paint properly applied, it adds greatly to the appearance of the place. This is a source of delight to the owner and helps make the family contented. A building that is kept well painted will last indefinitely. A good grade of paint well applied keeps moisture from reaching the wood and also from reaching the nails, the lack of which allows buildings to become weather-worn and its parts become loose, weak, rotten and misshapen. A well-painted place is not only more desirable to keep, but is more readily sold, as buyers prefer a well-kept place and will pay more for such. It pays to paint machinery any because of the better appearance and because it will keep the bolts and other parts from rusting or rotting, causing expensive breakdowns and making it difficult to repair. It is especially profitable to keep buggies and wagons well painted, for it keeps the wood from checking and the wheels from shrinking. Every time a tire is set it puts more dish in the wheels, which weakens it. For 50 cents a year a vehicle can be kept tight and be made to last almost as long as one will keep up the painting.

## EASTLAND

INVESTIGATION MUST BE SATISFACTORY TO PUBLIC, SAYS PRESIDENT WILSON

In a Letter Received From Him by Mayor William Hale Thompson of Chicago.

(Associated Press Telegram)

Chicago, Aug. 5.—A review of the testimony given and a consideration of responsibility for the disaster were announced today as the program for the county grand jury, which is investigating the capsizing of the steamship Eastland, July 24. Although this body has practically completed the taking of evidence, it is not believed that any indictments will be returned before the end of the week, or the early part of next week. Manslaughter and criminal carelessness in the handling of a steamship are charges on which State's Attorney Hoyne said he contemplated drawing indictments.

Secretary of Commerce Redfield did not complete his inquiry yesterday, because George Uhler, supervising inspection general of the steamboat inspection service, spent the day before the county grand jury. Mr. Redfield announced that he would hear Mr. Uhler today.

Labor leaders were prepared today to make plans for an independent investigation of the disaster. Mayor Thompson today received a letter from President Wilson in which he states that he will make it his duty to see that the investigation of the steamer Eastland disaster is entirely satisfactory to the public. The letter is in answer to a communication to which Mayor Thompson sent to the president several days ago, which contained a copy of the resolution passed by a committee of the Chicago city council demanding that the federal government make a thorough investigation of the Eastland accident independent of the inquiry being conducted by Secretary of Commerce Redfield.

## FIVE GENERATIONS HERE REPRESENTED

From Left to Right, Sitting: Mrs. Alta Harris, Mrs. Louise Householder. Photo By Russell.

To Gordon Burns McIntosh, age 1 year, son of Mr. and Mrs. E. L. McIntosh of North Fourth street, has come an unusual distinction, as he represents the fifth generation on the maternal side of his mother's family and the fourth generation on the paternal side.

The photograph which was taken recently by W. G. Russell shows the five generations, of which the great grandmother, Mrs. Mary Harris, residing at Hunts Station, O., is 36 years old. Mrs. Harris was born west of Ilmor and will celebrate her 80th birthday anniversary this September.

The great grandmother, is Mrs. Louise Householder, who will be

officiating minister, the Rev. L. S. Taylor of Alexandria, an intimate friend of the principals.

Miss Dull and Mr. Mitchell are both graduates of Denison university, class '13, and since that time Miss Dull has taught music in the Granville public schools and Mr. Mitchell has been superintendent of the Gambier schools. Mr. and Mrs. Mitchell will take up their residence in Zanesville September 1. They have many friends in Newark and Granville.

Charles Stanetti entertained the members of the A. O. A. with a card party on Wednesday evening at his home in West Church street and the following were his guests.

Messrs. Edwin Stedem, Theodore

Neal, Frank Spencer, Dale Warner, Hershel Stephan, Fred Hall, Clifford Sherburne, Harold Smucker, Arthur Meekes, of Cleveland and Ned Putnam of Granville.

Mrs. Charles Cooper entertained on Wednesday afternoon with a sewing party out of compliment to her guest Miss Helen Reese of Pittsburg. The guests invited to meet Mrs. Reese were: Mrs. Fred Warner, Mrs. James Cooper, Misses Louise Elliott, Mabel Jones, Lucille McEwen, Bernice Wilmette, Mary Maholin, Katherine Musser and Edythe Hall.

Mr. and Mrs. Earl Pritchett of Union street entertained with a six o'clock dinner on Wednesday honoring Mrs. C. A. Harrington and twin children Charles and Margery of Birmingham, Ala. The guests were: Mrs. Charles Lusk and children, Charles and Donald, Mrs. Jessie Steinhauer, Misses Alma and Kathryn Steinhauer and Francis Carlisle.

## WOMEN WILL NOT GUARANTEE THE 1916 CHAUTAUQUA

It is not probable that the City Federation of Women's Clubs will sign the contract for the bringing to Newark of the Chautauqua for 1916, for they feel that they do not care to undertake again the raising of the \$1500 guarantee as they have done in the two years past, but an effort is being made to have the business men as an association or individually sign the contract for the guarantee.

The attendance this year has probably been above the average, but the paid admissions at the gate have fallen off to a great extent, and while the federation receives 10 per cent of the receipts at the gate from which they realized about \$60 last year, it will not nearly equal that amount this year. Last year a total of about \$177 was realized, while this season's proceeds are not expected to exceed \$150.

Of the first \$1500 the guarantee, the federation receives no part but on all season tickets sold after that amount they receive 50 per cent and 10 per cent on gate receipts. The money last year was devoted to educational night classes for the foreigners of the city, and \$50 was donated to the library.

The chautauqua offers much in the way of educational and entertainment features, and it is to be hoped that before the Chautauqua closes this evening arrangements will be made for its return in 1916.

## LONDON NEWSPAPERS WILL CUT SIZE AS PAPER COSTS MORE.

(Associated Press Telegram)  
London, Aug. 5.—Decreased advertising revenue and a shortage in the supply of chemicals necessary for the manufacture of white paper have resulted in an agreement by the proprietors to reduce the number of pages. The Post today contained ten pages, while the Times, Telegraph and Standard contained twelve. Some of these two cent dailies frequently have printed twenty or more pages since the war has been in progress.

## ELOQUENT

## TRIBUTE TO PATRIOTISM OF POPULATION OF FRANCE BY PRESIDENT

Of Chamber of Deputies at Opening of Session of That Body Today.

(Associated Press Telegram)

Paris, Aug. 5.—The first meeting of the chamber of deputies after the anniversary of the beginning of the war and following the establishment of the union of all political parties in France to endure so long as the war lasts, was held today. The session was marked by an extraordinary demonstration of patriotism which was a strong indication of the unanimity of all Frenchmen of every faith and shade of political belief.

Today's meeting was the first since the formation of the present coalition cabinet in France.

Paul Deschanel, president of the chamber, opened the session with an eloquent speech, which was apparently intended to be a following of the example of the address of M. Rodzianko, president of the Russian duma, at the recent opening of that legislative body, and a reply to the anniversary manifesto of the German emperor. To this Premier Viviani gave response in the name of the government.

M. Deschanel said a year had passed since the enemy of France, even before declaring war, had violated French territory. "This year has been so full of a glory so pure," he declared, "that it will forever illumine the human race."

## ANTI SALOONISTS' STATE FIGHT WITH TEMPERANCE UNION

(Associated Press Telegram)

Columbus, Aug. 5.—The Ohio Anti-Saloon League and the Ohio Temperance Union have locked horns in a state-wide fight and echoes of one of the smaller battles reached the state board of agriculture today. The Anti-Saloon league charges that the temperance union is a "wet" organization in disguise and the league officials are trying to bar the propaganda literature of the union from all county fairs. The Green county fair board has sent in a communication saying it prohibited the temperance union literature.

## COAL MINERS AT REGULAR WORK IN CLEVELAND TODAY

Cleveland, Aug. 5.—One hundred and fifty coal miners from southern Ohio shouldered picks and shovels here today and began their first consecutive eight hours work in months. They were put to work on jobs in various lines of labor here through the efforts of the state-city free employment bureau, having been brought from the mine region last night by state officials who are endeavoring to relieve suffering among the families of miners long idle due to the recent closing down of mines.

## PRAYER SERVICES IN CANADA AND INDIA

(Associated Press Telegram)

Singli, India, Aug. 5.—(Via Canada)—Intercession services are being held in the churches, mosques and temples throughout India, all sections of the British and Indian communities participating. Numerous patriotic meetings also have been organized by Indian citizens. It is estimated that \$5,000,000 has been subscribed to the British war loan through Bombay and Calcutta.

## NEWARK CREW

ABOARD B. & O. PASSENGER TRAIN IN WRECK AT WASHINGTON, D. C.

Steel Coach Topped Over 15 Foot Embankment But None Was Fatally Injured.

(Associated Press Telegram)

Washington Court House, Ohio, Aug. 5.—Eight persons were injured, none fatally, when a Cincinnati, Hamilton and Dayton freight train collided with a Baltimore and Ohio passenger train early here today. It is considered almost miraculous that there were no fatalities as a steel coach on the passenger train rolled over a fifteen foot embankment, eight of the ten persons in it sustaining cuts and bruises. Pullman Conductor J. J. Dolan of Covington, Ky., was the most painfully hurt, having sustained cuts about the head and face.

The two trains came together at the railroad crossing near the station.

The passenger train was B. & O. No. 105 westbound. Another sleeping car was derailed but occupants of it were uninjured.

LOCAL MEN IN CHARGE.

Train No. 105 passed through this city early this morning and a local crew took charge of the run to Cincinnati. Conductor Ed. Faust and Engineer Jos. Robe of this city were on the passenger train and neither of them was injured. A dispatch to the local B. & O. offices stated that only several of the passengers were slightly injured and they were in the car that went down the embankment.

## The Courts

In Common Pleas.

In the case of B. G. Smythe against Robert White and Edward Smucker, a bill of exceptions has been filed by the defendants for the purpose of taking the case to the court of appeals. At the trial of this case in the common pleas court the jury returned a verdict for \$1200, the defendants filed a motion for a new trial which was argued and submitted to the court, in deciding the case the court reduced the verdict to \$1000, which the plaintiff agreed to accept. The case will probably be submitted to the court of appeals at its October session this year.

Seeks Separation.

Margaret Brehm has begun an action in the common pleas court for a divorce from Herbert E. Brehm. She recites in her petition that they were married April 9, 1914, and that they are the parents of a child aged three months. The plaintiff alleges that ever since their marriage the defendant has failed to provide the necessities of life and that she has been compelled to live by the support of her parents. Plaintiff asks for a divorce and the care and custody of the minor child and all proper relief.

Divorce Petition.

Ella Yost has filed a divorce petition in common pleas court against J. W. Yost. It states that they were married at Pottsville, O., Jan. 1, 1884, and that five children resulted from the union, three of whom are of age and one 19 and the other 17. The plaintiff in her petition charges gross neglect of duty and extreme cruelty, and using abusive language to the extent that three of the children were compelled to leave home. The plaintiff was also ordered out of the home by the defendant, she alleges, about May 1, 1915. She asks for a divorce and all equitable relief.

Marriage License.

George E. Lattimer, a conductor of Cleveland, O., and Miss Grace L. Van Dorn, of Granville, O., Rev. L. P. Franklin named to officiate.

Earl R. Downing, a farmer of Croton, O., and Miss Fanny L. Patrick, of Hartford township, Rev. Don D. Tullis named to officiate.

Harry D. Bolen, a blacksmith, and Miss Alice P. Parrill, both of Granville, O., Rev. B. Spencer named to officiate.

## LOCAL GIRL ON THE SCREEN AT ALHAMBRA

The fifty Ohio beauties were shown at the Alhambra theatre yesterday afternoon and evening, and among them was a Newark Girl—Miss Eva Partridge, one of the contestants for a fine trip to the Panama-Pacific exposition, which is being conducted by a film company at Columbus.

Each patron of the theatre is given a ballot when a ticket is purchased, and after the beauties are shown on the screen the members of the audience write their preference on the ballot and deposit it in a box as they leave the theatre. The young women are known by numbers only. Miss Partridge's number which she holds before her on the screen is No. 9. Her many friends hope that she may be successful in landing one of the trips.

## VOLCANO HAS SPENT ITS ENERGY IN LAST ERUPTION.

(Associated Press Telegram)

Washington, Aug. 5.—The recent great eruption of Lassen Peak, California, spent the energy of the old volcano. This is the conclusion of J. S. Biller, of the geographical survey, who has just completed a study of the peak in co-operation with officials of the forest service.

In a report to the geographical survey, Mr. Biller expresses the belief that while the mountain doubtless will continue to be an active volcano, its activity, it will not develop into a devastating fury after the manner of well-known recent volcanoes.

The most violent and destructive volcanic eruptions of Lassen Peak occurred in May, 1915.

## Obituary

Mary F. Dinsmore.

Mary F. Dinsmore was born in old Virginia, October 28, 1830, and died at her home near New Way, Licking county, O., July 26, 1915, aged 84 years 8 months and 28 days. She came in early life with her parents from her native state to Ohio, and settled at Alexandria, Licking county, and spent the remainder of her life in said county.

She was married to Mr. Eli B. Dinsmore, January 15, 1850, and to this union were born three daughters and one son. She united with the Methodist Episcopal church in early life and lived in earnest Christian life until the end came. She had been in declining health for several years previous to her death. She had passed through much suffering before the release came to her by death.

Her children say she was a kind and loving mother and will be greatly missed by all of the family.

Her funeral took place from the Liberty Methodist Episcopal church, of which society she was a member, conducted by her pastor, Rev. Frank Gilman, and interment was made in the Freedom cemetery.

Mrs. Margaret Stewart.

Mrs. Margaret Glenn Stewart, former resident of this county, died this morning at her home in Lincoln Neb., according to word received by her only sister, Mrs. Hulda Frye of 177 Seventh street, this city. No details of her death were received. The body will be brought to Newark for burial. At the same time, the body of her husband, whose death occurred 25 years ago, will be exhumed and shipped here. A double burial service will be conducted when the two caskets are buried together.

## Sleeping On the Sidewalk is Better Than Being In Warsaw Now.

This is only one family which was found sleeping on the sidewalk of an East Side street in New York. Above the tenement reeked steam and odors in it. Sleep there was impossible. Mrs. Winkowski took her little brood out to the sidewalk. Even there they found hardly a breath of air. "But this is better than being in Warsaw today," said she when the flashlight awoke her. "Warsaw?" "Yes, I came from there a year ago. My sister is there now, in the middle of the war."

SEAMEN

HEAR SECRETARY OF LABOR PRAISE LEGISLATION PASSED FOR THEIR BENEFIT.

Seamen's Act Declared on Par With Magna Charta and Emancipation Proclamation.

(Associated Press Telegram)  
San Francisco, Aug. 5.—W. B. Wilson, secretary of labor, in an address here last night before the convention of the International Seamen's Union, placed the seamen's act on a par with the Magna Charta, Declaration of Independence, Constitution of the United States and Emancipation Proclamation.  
"It means the freedom of all seamen," he said, "on any ship of every nationality trading with United States ports. It is absurd to believe that this act will drive American ships from the sea. In effect it will place ship-owners of nationalities on an equality, as the foreign seamen will not be long in demanding the same privileges that the bill gives to the seamen of this country."  
"I am not a prophet," he continued, "but I want to say that the Pacific Mail ships will neither go out of business nor under the American flag. Regarding the Robert Dollar ships, everybody knows that these vessels were not placed under the American flag until the war broke out. The shrewd old Scott didn't want his ships sunk. When he applied for American register, it was with the understanding that it was only for the duration of the war."

FARMERS

AND MERCHANTS IN GRAND PICNIC UNION AT MONSTER PICNIC AUGUST 19

Governor Willis Has Promised to Attend—Fine Program of Sports and Amusements.

No matter in what direction your tastes for amusement may run, if you attend the monster merchants' picnic on Thursday, August 19, you will find plenty during the day to entertain you.  
The program doesn't begin at daylight, but it does start at 9:30 which is reasonably early to start a program at a picnic. From that hour until dark, committees of local business men, farmers and strangers will be hustling from place to place in the historic old grounds, superintending stunts of various characters to amuse the thousands who are expected to attend.  
The object of the picnic is to bring the farmers, grangers and business men into closer relationship and to start a movement looking towards the location of a county-agricultural experimental farm. To give the farmers and grangers who attend this meeting, an idea of the value of such an institution, speakers will be present who are informed on the subject of agriculture.  
Governor Frank B. Willis will be on hand and will deliver the principal address. A. P. Sandles, former secretary of the state board of agriculture, Prof. Williams, of the state agricultural experimental station at Wooster, Prof. Homer C. Price, former dean of the department of agriculture, O. S. U. Cary Montgomery, local agricultural expert and Prof. C. H. Ballou state horticulturist will be the other speakers.  
The speaking starts promptly at 1 o'clock and will be concluded in time to start the horse races.  
The day's program includes horse races, motorcycle races, foot races of various distances, grased polo, greased pole, guinea hen chase, potato races, egg races, ball games, morning and afternoon, and numerous other events, more than forty amusement events occupying places on the program.  
Company B, Old Guard, Newark's crack veteran organization, has been invited to act as escort for Governor Willis and no doubt will be in full details for the occasion. The music committee is making arrangements for ample entertainment in that line throughout the day.  
For the various contests arranged, the committees in charge will award first and second prizes, as contestants who try for first place and are disappointed, will find consolation in the second prizes all of which will be of considerable value.  
The picnic feature is not overlooked. Families will be expected to come early with baskets filled with only Ohioans know how to fill them. The Grocers and Meat Dealers' Association, which has united with the Merchants Association in the event, will furnish free lemonade and coffee during the day.  
A feature which a committee is now endeavoring to arrange will be a transcontinental telephone conversation to be installed by the Central Union (Bell) Telephone company. If the plans are carried out connections from Mountbuilders' Park to San Francisco will be "put up" and instruments arranged so that groups of several hundred picnickers can "listen in" on a conversation which one of the speakers will have with some one in San Francisco.  
A committee of local moving picture men are also arranging to give away a number of tickets to those who attend the picnic. The details of this plan have not been completed.  
Joining in this movement for one monster big time for Licking county folks are the Merchants' Association, The Grocers and Meat Dealers' Association and the county granges. It is not a partisan affair and all residents of the county will profit by it.

Granville

(Special to Advocate.)

Granville, Aug. 5. Mrs. E. J. Dorsey was hostess yesterday afternoon at a delightful porch party which she designated as a "porch party." These present being Mrs. Felix of Chicago, Mrs. Grove of Newark, Mrs. Bert Crawford and Mrs. J. E. Jones and Mrs. Belle Grove Wagon. Mr. Bert Crawford and Mr. Wagon, joined the ladies in time for the delicious refreshments which were served on the spacious porch, after which the Newark party departed in Mr. Crawford's automobile.  
Miss M. E. Penney went to Columbus yesterday for a visit of several days' duration.  
Miss Lilybell Seton started today for Onocida Institute at Onocida, Kentucky, where she will spend a month. She was accompanied by Dr. and Mrs. Bousall of Pittsburgh, who have been visiting their son-in-law and daughter, Rev. and Mrs. C. E. Stanton in West Broadway. It is an interesting, if somewhat strenuous journey into the Kentucky mountains, and is becoming increasingly popular among those who are interested in President Burns' magnificent work for the education of the mountaineers.  
Miss Katherine Griffithfield of Mr. Vernon, O., a Denison alumnae, is visiting for a few days in Granville a guest at the home of Dr. and Mrs. C. J. Rose in West Elm street.  
A reunion of the Williams family is booked for today at Mountbuilders' Park.  
Miss Isabel Raymond, who has spent the greater part of the past year in California, has returned to Granville. Mr. Albert Gucker has awarded the contract for building his new bungalow in Centerville street to Watkin Thomas, and work has already begun.  
Mr. and Mrs. T. Williams expect to leave soon for a visit to the San Francisco Exposition and a tour of the Pacific coast.  
Prof. and Mrs. A. C. Cole, formerly of Granville, write from San Diego, that they are delighted with the climate and with all they have seen of the great state of California, and that they were then en route for San Francisco.  
Those who enjoy a visit to the Burton Co. peach orchard last year, are promised an equal if not greater treat this summer. The trees in the old orchard are well laden with beautiful fruit, and the young orchard are almost equally well laden. The beautiful peach grove will be ready from the 15th to 25th of August, the Elbertas and other yellow varieties are about ready. The early Carmons are also ready.  
The "Sleeper" Opera House booked for the Granville Opera House tomorrow night is at present very wide awake, judging from the signs of activity around that historic old building. The play has shaped up beautifully and every one is sure of a good time who goes. The weather is favorable, so, go to Ulman's and reserve your seats. Make up a "box party," and take your friends.

## ARRESTED AND CONFESSED HE WRECKED TRAIN

(ASSOCIATED PRESS TELEGRAM)  
Salt Lake City, Utah, Aug. 5. — Harry G. Hontz, who gives Leighton, Pa., as his home, is in jail here today, having surrendered to the police last night and confessed that he wrecked the scenic limited on the Denver and Rio Grande railroad near Springfield, Utah, last Monday, when several cars left the rails and many persons narrowly escaped injury. Hontz said he threw a piece of angle iron under the train to wreck a brakeman had ejected him from a freight train. Hontz said he was arrested in 1910 and sent to prison for wrecking a semaphore and sending a handcar against a mail train at Fernley, Nevada.

Hontz told the police he was responsible for several other railroad wrecks, and also the burning of the Lehigh Valley station at Ulster, Pa., June 6, last.

He said he was in the government hospital for insane at Washington, for a time when a member of the United States marine corps.

**\$1000 REWARD, \$1000**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

## PURITY

Messrs. Rolla Wilkin, Will Donaldson and Clyde Penick were caught out in a severe storm as they were coming home from St. Louisville, Saturday night, and their horse frightened at a bolt of lightning that shattered a nearby tree, and jumped to one side off of a bridge they were crossing. There was no railing on the bridge and the buggy and two of the boys went into the stream which was badly swollen by the rain. Wilkin held to the lines and landed clear of the water on the bank of the stream. He released the horse from the buggy and tied the animal to the fence, but another crash of thunder caused it to break loose and run to the Wilkins' barn. Mr. Wilkins heard it and came to their assistance. None of the boys was hurt, but the shafts of the buggy were broken and the top was bent. Considerable interest was created here, Sunday morning, by the passing through our village of a young man, on the rear part of whose buggy was displayed a huge placard bearing the announcement: "Fallsburg or Bust." Since the young man returned home safely in due course of time, it is evident he reached his destination without serious mishap.

Several ball fans from St. Louisville were here Sunday to witness the game between the St. Louisville and Purity teams. The game was

called off in the fifth inning, because of rain. The score stood 6 to 0 in favor of the visiting team.

## ITALY REPORTS GRAVE LOSSES OF THE ENEMY

(ASSOCIATED PRESS TELEGRAM)  
Rome, Aug. 4. (Via Paris.)—

The following statement was issued tonight at the headquarters of the Italian general staff:

"Our heavy batteries directed an effective fire on the station of Borgo on the railroad in Val Sugana, where there is an important freight traffic.

"The enemy's losses in stubborn attacks on Mount Medatta in Carnia now are found to have been very grave.

"On the Carso plateau the night of the third passed quietly. During the morning our artillery shelled masses of infantry observed near Marcofina and columns marching along the road from Rupa to Dobersao. Our troops, having resumed their advance the left wing and center made slow progress, but on the right we confined ourselves to maintaining positions previously conquered.

"The enemy attempted vainly to recapture ground held by us on Monte Seibust, but was beaten off with heavy losses."

**IRON TRADE REVIEW.**

Cleveland, O., Aug. 5.—The Iron Trade Review today:

The pig iron market has gained greatly in volume during the past few days and moderate advances in prices have taken place. Buyers are showing much more anxiety to contract, not only to fill out their needs for the remainder of this year, but also to cover their requirements for the first half of next year. Furnaces are slow to quote for delivery after Jan. 1. Many inquiries for basic are pending and includes some for large tonnages.

In finished materials, specifications have been very heavy and pending inquiries call for steel bars, plates and shapes in large amounts.

Another good thing about the iron market is that there is no excess. Live so you can wear any darn thing you please.

By Gwen Sears

Noses have much to do with beauty and also serve to stamp the owner with certain attributes of character. Whenever the "Roman" nose is seen, one can be positive that its owner is full of enterprise and will make a success of herself, if it is humanly possible. When a ridge is in the center of a nose, its possessor will be moderate and inclined to fight other peoples battles.

In a nose with a ridge at its top the upward tilt indicates selfishness. The individual born with such a nose is always thinking of self, always striving for self advancement and self aggrandizement, regardless of other people's rights. This is the kind of a nose to be ashamed of.

The "Grecian" nose, which knows not the meaning of the word ridge, only belongs to those people who are refined and artistic. While they may not possess quite enough stamina to make a financial success of life, they are always to be admired. No longer sleep when you survey the wide tip of your nose, as it means that you are of a trusting and confidential nature, and this is nothing to be ashamed of.

When the bridge of the nose is thin, know that, whether you have much or little money, you will spend it, you have whenever the opportunity offers, unless you intend to fight against fate and change into a woman of miserly tendencies.

I think you know without my telling you that the nose with a pointed tip belongs only to those women who are possessed of a reserved and cautious temperament. When, in addition, it droops slightly, suspicion and love of intrigue are indicated.

# “Over The Wire”

[By Dorothy Clarke]

We had an awfully good time! Molly took us over in grand style. . . . A coach, my dear, with six horses. . . . It was terribly exciting. . . . She drove part of the way. . . . I thought driving a big car was bad enough, but six horses. . . . Well, I feel faint at the thought. . . . Yes, she's a wonderful horse woman. . . . They used to go on long coaching parties through England before the war. . . . She looked exceedingly smart. . . . The best looking lat. . . . It was rather the shape of the Irish topper that Chauncey Olcott has made famous and it was made of the same kind of long haired silk beaver that the men wore in the Civil War times. . . . It was a satiny black and the only trimming was a steel buckle with a riband of cut steel beads running through it. . . . She wore her hair in a sort of mannish style with little "sideboards" in front of the ears. . . . Oh, all right, dear. . . . Good-bye. . . .

## Your Boys and Girls

There are three kinds of round shoulders, the ordinary round back, the round hollow back, and the round back due to forward displacement of the shoulders. During the years of growth posture will usually take care of itself, if constant changes are allowed. Change is instinctive and automatic in the child and the varied activities are sufficient to lead it along normal lines.

If, from inherent weakness or the confinement of school life without the relief of games and play, this normal development be hindered, the result will show in the spine. The causes of round shoulders are those general conditions which produce muscular or constitutional weakness, like rapid growth, overwork, bad air in schools or home, acute illness, or general lack of exercise.

Round shoulders are not likely to be outgrown, as the victims usually become permanently set in the faulty position, with flattened chest walls and distorted figure.

## CHAPLIN BILL AT KOZY TODAY.

This afternoon and tonight will be the final opportunity for the picture fans of Newark to see a program entirely made up of films in which Chaplin is featured.

Judging from the support the first big review received and the satisfaction the patrons of the Kozy showed the second big Chaplin Review brought to be a big success.

There will be entirely different subjects from these included in Review No. 1. It has today been learned that the second review is in some instances much better than the first.

The doors for this big special will open at noon and the show will be continuous until midnight. The price of admission will remain at 10c and 5c for children for matinee.

General E. B. Finley of Bucyrus, well-known in this city, recently celebrated his 82nd birthday. The general is the dean of the Crawford county bar, is still actively engaged in his law practice, and is enjoying fairly good health. He is an old-line Democrat and has served two terms in congress.

## WHAT TO DO FOR ITCHING SKINS

Eczema, ringworm and other itching, burning skin eruptions are so easily made worse by improper treatment that one has to be very careful. There is one method, however, that you need not hesitate to use, even on a baby's tender skin—that is, the resinol treatment. Resinol is the prescription of a Baltimore doctor, put up in the form of resinol ointment and resinol soap. This proved so remarkably successful that thousands of other physicians have been prescribing it constantly for 20 years. Resinol stops itching instantly, and almost always heals the eruption quickly and at little cost. Resinol ointment and resinol soap can be bought at any druggist's.

## CLEARS BLOTCHY SKIN

Try resinol soap for a week. You will be surprised to see how it clears and freshens your complexion, even in that short time. Used for the shampoo, it removes dandruff and keeps the hair live, rich and lustrous. This is because it contains the soothing, healing resinol medication.

## MASONIC LODGES, ATTENTION.

## BURNED BY LIVE WIRE; NARROWLY ESCAPES FALL

Clarence F. Brown, wire chief of the Coshocton Telephone company, narrowly escaped a bad fall and probable electrocution, Tuesday afternoon, when he came in contact with a high-tension wire of the light company while at work on a telephone pole.

His leg struck the wire and the shock caused him to lose his balance. He saved himself from falling by catching a cross-arm on the pole. Brown's knee was badly burned by the current from the wire which carried 4400 volts. He is a brother of Mrs. C. F. Stewart of North Fourth street.

## NEW CURE FOR STOMACH ACHE USED BY MAYOR

When a defendant arraigned before Mayor Bigbee, Thursday morning, pleaded that his condition was due to stomach-ache caused by eating green apples, he was told that by serving out a sentence of \$5 and costs his stomach-ache would be cured. He was ordered to take the cure. One other drunk drew a similar dose though he did not plead the same contributory cause.

"Pride goeth before a fall," quoted the Wise Guy. "Yes, no nimes is so great that sooner or later it won't stick up against a grater," added the Simple Mug.

## FRENCH REPORT MUCH ACTIVITY IN THE ARGONNE

[ASSOCIATED PRESS TELEGRAM]

Paris, Aug. 5.—The French war department today gave out the following official statement:

"In the Aisne district, around Souchez, there took place last night fairly spirited engagements with grenades and bombs, as well as with artillery. There were also fairly active artillery exchanges at Tracy-Le-Val and in the vicinity of Vailly, in the valley of the Aisne."

"In the Argonne the night passed with much activity. There was rifle firing and the throwing of bombs from trench to trench together with artillery firing on several different occasions."

"On the heights of the Meuse at Bolshaut, the German attack was easily checked."

"In the Vosges last night there was a continued and very severe bombardment of our trenches at Lingkopf. Yesterday evening German forces delivered a very violent attack against the French positions at this point, but in spite of this and with the exception of some trenches on the crest of the Lingkopf, we retained all our ground."

## QUESTION

(Continued from Page 1.)

carload lots, between points within the state of Ohio, are excessive, unjust and unreasonable, and unjustly discriminatory by comparison with other rates charged and collected by the defendants for like and contemporaneous service in the transportation of bituminous coal under substantially similar circumstances and conditions."

Coal operators in numbers attended the hearing today and were ready to assist miners' counsel in pressing complaint against the rates.

Ohio railroads may not justify any alleged differences in rates for coal carrying as between Ohio and West Virginia mines by showing varying conditions in mining conditions or grades of coal, according to a ruling given by the state utilities commission today in the initial hearing of complaints by coal miners and operators against the railroads. The burden of this complaint is that the lower rates granted West Virginia coal operators by the railroads has partly crippled the coal industry in Ohio and has caused among other things general conditions of idleness particularly in the Hocking Valley coal district. The hearing is being held at the Franklin county court house.

Counsel for the railroads consumed much time today in trying to show differences in mining conditions as between the two states, but finally were overruled.

The miners and operators introduced as their first witness Prof. Frank A. Ray, head of the department of mining engineering at Ohio state university. He consumed most of the morning session of the hearing, showing the commission the actual conditions. He declared among other things that owing to various causes not more than 6 percent of the coal resources of Ohio have been exploited.

## GERMANY

(Continued from Page 1.)

however, that no treaty rights are waived.

Should the United States allow the controversy to go to The Hague for interpretation of the treaty provision or continues to discuss the issue through diplomatic channels, it is virtually certain that it will insist that meanwhile, Germany refrain from violation of what the United States contends are its rights.

"The right of sinking," says the German note, "is not mentioned in the treaty, and is therefore neither expressly permitted nor expressly prohibited, so that on this point the party stipulations must be supplemented by the general rules of international law. It is not disputed by the American government that according to the general principles of international law a belligerent is authorized in sinking neutral vessels under almost any conditions for carrying contraband."

The note argues at length for the German interpretation of the disputed treaty provision, containing that its intent is to establish a reasonable compromise between the military interests of the belligerent contracting party and the commercial interests of the neutral party.

"On the one hand," says the note, "the belligerent party is to have the right to prevent the transportation of war supplies to his adversaries, even when carried on vessels of the neutral party, on the other hand, the commerce and navigation of the neutral party is to be interfered with as little as possible by the measures necessary for such prevention, and reasonable compensation is to be paid for any inconvenience or damage which may, nevertheless, ensue from the proceeding of the belligerent party."

That, in short, is Germany's argument, based on her interpretation of the treaty, and to that the view of the United States squarely opposed. Payment for the Frye in the manner suggested would not affect the question of rights under the treaty.

A German prize court on July 10 held the Imperial Government for damages, but lived no amount, since the United States declined to become a party to the proceedings, demanding settlement by diplomacy under the treaty.

The case of the American steamer Leelanaw, recently sunk by a German submarine is parallel to the Frye case. It is now in the preliminary stages of diplomatic negotiations.

## Riley's Good Friend Gillilan to Appear on Final Night of Chautauqua

TWO years ago, when James Whitcomb Riley's birthday celebration was planned, the Bobbs-Merrill Publishing Company asked the Indianapolis Star to assign Strickland Gillilan to the task of handling the story of the school children's parade and other features. Gillilan's story was copied in full by the Literary Digest, which commented as follows:

"As a rule a man's birthday is not regarded as important news, but when a man like James Whitcomb Riley has a birthday and 2,000 school children parade in his honor and when a clever man like Gillilan is there to write of it we will turn aside from the Mexican war news and almost anything else to read what he has to say."

The above photograph shows Riley and Gillilan together on the lawn at the Hoosier poet's home on Lockerie street, at Indianapolis.

## TONIGHT WILL SEE CLOSE OF CHAUTAUQUA

MAGICIAN WEDNESDAY NIGHT  
DELIGHTED AUDIENCE OF  
OLD AND YOUNG.

This Afternoon Chaplain of Indiana  
State Prison Speaks of New Re-  
formatory Methods.

Some several hundred Newark boys and girls will for the next few weeks mystify their parents with slight of hand tricks after having watched the Great Reno from close range to see just how magicians do the marvelous stunts. They saw him transfer the live duck from his coat sleeves to the gentleman's hat. They saw him slip a handful of half dollars from his pocket just before he made them appear to drop from the nose of an astonished lad who "assisted" the magician. It's a very simple matter to produce a live duck from an egg broken into a chaffing dish and cooked with a bit of burning alcohol. How do we know it's simple? That's easy. Just watch the magician closely and it's a simple matter. If you don't believe it, watch the Newark youngsters for the next few days and see just how it's done.

The Great Reno delighted a big Chautauqua crowd Wednesday night. The old enjoyed the entertainment as well as the young. His use of youthful assistants which he chose apparently haphazard from the audience, was a novel feature of the entertainment and the little ones who went on to the stage showed their mystification in their faces.

His entertainment continued for an hour but none of the children grew tired. They enjoyed the novel experience of being permitted to fondle the doves, guinea pigs and rabbits which he produced seemingly from nowhere.

One of the newer tricks was the transfer of a dozen balls with which he played catch with "Jimmy," one of the boys from the audience, from a sealed can to a small glass case. It was easily done. All that was necessary to accomplish the transfer was to fire a blank cartridge from the pistol, at the sealed can. At the flash that followed the crack of the pistol, the balls appeared suddenly in the glass case.

The Advocate man was unable to sit close enough to the stage to see just how the tricks were done. All the seats were taken up by youngsters for four or five rows back, before the newsmen reached the tent. Most any of the kiddies can explain just how it was done.

As a prelude to Reno's entertainment, The American Male Quartet, young men with a pleasing entertainment, gave a versatile program. The music was good but the chalk talk by one of the members and the character sketch from James Whitcomb Riley were more entertaining.

Their program was so varied that any one in the audience could find something entertaining in their work. Their program was closed with the rendition of "A Perfect Day," with a violin, cello and piano accompaniment while the chalk artist gave his conception of a perfect day, by use of colored crayons. His drawing of a sunset, with the rich colorines was good and his work brought him commendation from the crowd.

The American quartet precluded the address of Hon. John T. Barker at the Chautauqua on Wednesday afternoon. The quartet made up of L. E. Gilbert, Clayton Conrad, P. E. Fairchild, and J. M. Sawyer gave an interesting half hour program of violin and cello solos. The violin solos Winter Song by Bullock was delightfully interrupted as was the Venetian Boat Song by Nervins on the cello. The quartet sang several bright and snappy numbers and Clayton Conrad, cartoonist, did some clever work with the crayons.

Hon. John T. Barker, who is attorney general of the state of Missouri was introduced. There is a possibility of Mr. Barker being the next governor of Missouri, if public sentiment is any criterion. Recently Attorney General Barker was elected president of the Association of Attorneys-General of the United States, and he spoke on the subject "The Courts and The People." Mr. Barker discussed the technicalities of the law, taking the position that too many cases are decided upon technicalities rather than right and wrong.

He then gave as an example how the supreme court reversed a decision in a murder case, where all evidence proved conclusively that the man was guilty, owing to the omission of the word "The" by the state's attorney. The statement of the case read by state instead of "by the state." Other examples were given briefly by Mr. Barker reviewed the Plaw case, stating that Thaw should have been released the moment he regained his sanity. He also discussed the Leo Frank case, reviewing it, and making the statement that Frank is innocent. He spoke of the suit instituted by the state of Missouri to recover \$20,000,000 from the railroads which is the excess fare charged during an injunction suit, which held for 15 years. Mr. Barker gave his personal experiences in the case telling of the antagonism between himself and the federal judge who sat in the case.

Mr. Barker advocated reforms in the courts. He spoke concisely and presented his facts rapidly to his audience.

### PRESIDENT OF OHIO NORTHERN AT CHATHAM

Community Uplift Day Promises to  
be an Interesting Occasion Next  
Thursday, August 12.

(Special to The Advocate)

Vantatta, Aug. 5.—Thursday, Au-  
gust 12, will be community up-lift  
day at Chatham. There will be a  
parade in the morning and a fine  
tent to shelter visitors from the  
weather, whether wet or dry. Albert  
Edwin Smith, D. D., LL. D., Pres-  
ident of Ohio Wesleyan University,  
will speak.

The officers of the Chatham  
Men's Club under whose auspices  
the program of Aug. 12 will be held  
are: Rev. Frank Gillilan, president;  
Marian Preston, vice president;  
Willis Eschelman, secretary; Wayne  
Holler, treasurer; L. T. Incho, color  
bearer.

Committee of Fifteen—Silas An-  
derson, C. E. Alsop, J. W. Dunlap,
